Valley Water

Clean Water • Healthy Environment • Flood Protection

## Information Systems Analyst II/III

\$110,988-\$142,080 - INFORMATION SYSTEMS ANALYST II

\$122,448 - \$ 156,804 - INFORMATION SYSTEMS ANALYST III

**WANT TO WORK IN A SMALL AND HIGHLY EFFECTIVE TEAM?**

***This position offers great benefits and a supportive work environment.***

### VALLEY WATER

Valley Water manages an integrated water resources system that includes the supply of clean, safe water, flood protection and stewardship of streams on behalf of Santa Clara County's 2 million residents.

### THE POSITION

The Information Systems Analyst will work in the Software Services Unit to support Infor CloudSuite. This person will be a key player in a small team. The organization is in the process of implementing a new enterprise resource system for its human resources, financial and procurement functions. Therefore ERP experience in the technical and functional support of Infor CloudSuite in any of the modules is very important. Development and maintenance of interfaces as well as day-to-day end user application support is required.

### THE IDEAL CANDIDATE

The Ideal candidate will be a team player with good communication working in a small but well organized unit. This unit serves approximately 1000 users so the person best suited is one that likes and has experience in ERP application support, maintaining the systems that help the organization work efficiently.

Because the organization is implementing a new ERP system, some experience and knowledge of Infor CloudSuite is a must.

This person should also be well qualified working with ad-hoc queries and reports in ISD, BI and Birst. They will be able to design and develop customizations and interfaces to meet business needs. At the same time, they should be willing and able to professionally manage customer inquiries and issues.

## EXPERIENCE & QUALIFICATIONS

The following combination represents the minimum training and experience requirements:

**LEVEL II** - Three (3) years of experience supporting business analysis, programming, system configuration and integrations for enterprise systems, preferably Enterprise Resource Planning

**LEVEL III** - Five (5) years of experience supporting business analysis, programming, system configuration and integrations for enterprise systems, preferably Enterprise Resource Planning.

### IDEAL EXPERIENCE LEVEL II/III

- 2+ years of Infor CloudSuite or Lawson experience.
- Experience with development and maintenance of interfaces, reports, workflow automation, configuration, security and general system administration.
- Strong experience using Application Programming Interfaces is ideal.

## COMPENSATION & BENEFITS

Yearly Salary Range:

### LEVEL II

\$110,998 - \$142,080

### LEVEL III

\$122,448 - \$156,804

Appointment will be made within this range depending upon qualifications.
